Studebaker

WAGONS BUGGIES HARNESS

In use for 42 years
—and still going

In a recent letter to Studebaker, L. J. Balch of Coshocton, Ohio states that he owns a Studebaker Farm Wagon which has been in constant use for 42 years and is still giving good service.

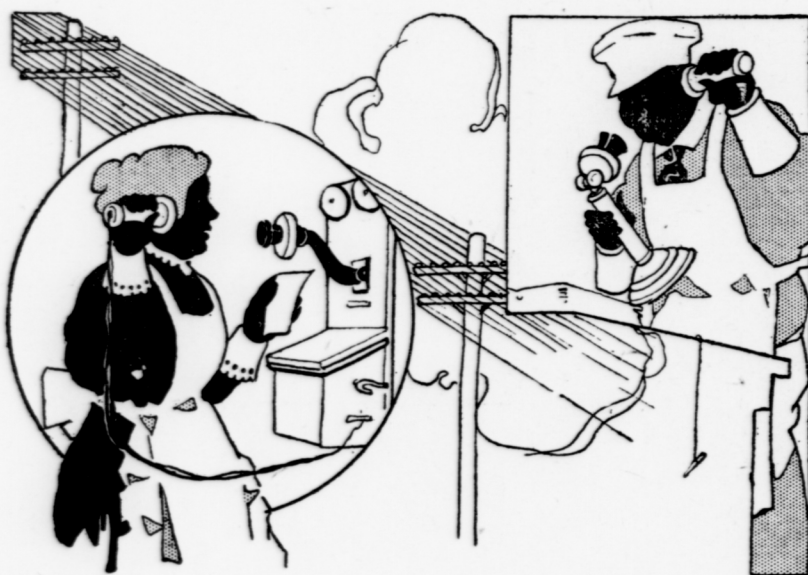

This clearly shows that a Studebaker Farm Wagon is a good investment for any farmer.

We constantly carry a full line of Studebaker Farm Wagons, just as dependable, just as strongly built as the 42 year old wagon owned by Mr. Balch.

When you want a Farm Wagon, come in and let us show you our line of STUDEBAKERS.

We can save you money.

County schools began last Monday.

The election is over—well who's sorry.

The Dove season opened last Saturday, you may kill them until Feb. 1st.

With the exception of a few scattering crops, the threshing season is over.

The election was as quiet a one as was ever held in Garrard county. So far as we can learn, not a cross word to mar the day.

When it comes to getting election returns or transmitting news to the outside world, Lancaster is about as remote a place as can be found.

This is "homecoming week" for the Garrard county colored people. All those living away from here usually "ride the excursion" home during the fair.

Swain's show was just about the best tent attraction that has been in Lancaster. But it does appear to us that we have just about had enough "tent shows" during the present season.

The Lexington fair is in progress this week and Lancaster is sending over a good crowd each day. Of course, you see we have no fair here, and our people are compelled to go to a fair some place.

The Christian Endeavor realized a nice profit from their Court Day Lunch. They received many compliments, for the good things they dispensed so reasonably. This is a very enthusiastic body of young people, all in their teens.

With a fair some where every week from now until the snow flies, and Lancaster people attending each and every one of them, it is hard to calculate the number of dollars taken from the county. But then you know we have no fair at home.

There will be no services at the Christian Church next Sunday morning Brother Under being in a protracted meeting at Bethel. He reports a splendid meeting, he having immersed 14 there last Sunday. Sunday School at the regular hour and the usual communion services will take place.

LOST.

Monday evening a Twenty Dollar Bill. Finder please return to Judge J. P. Prather.

CATHOLIC SERVICE.

Father O'Brien came down from Richmond and held services at the home of Mr. N. Miller on Tuesday morning for the benefit of the Catholics of the county.

UNFERMENTED WINE.

Pick your grapes and wash them. Put on the stove, boil until seeds come out and the put in sack to strain. To every quart of juice add one large tea cup of sugar. Then boil, skim and put in self sealers or bottles and cork while hot. Mrs Rebecca West.

EQUAL TO THE EMERGENCY.

On last Saturday morning the election officers at the Bryantsville precinct called county clerk Hamilton by phone and informed him that in their opinion they did not have enough ballots to finish the election. Mr. Hamilton hurried to the Record office, the form was put up, ballots printed, bound into book form, rushed to Bryantsville by auto arriving there before noon. It afterward developed that but for this action upon the part of Mr. Hamilton, there would have been 26 ballots short in one of the Bryantsville precincts.

SCHOOLS BEGAN MONDAY.

The rural schools of the county began on last Monday. Miss Higgins informs us that notwithstanding the fact that she has made every effort to have the books here, that they were not all here for the beginning of the school term, and the first week will be devoted to the organization of the schools, as much cannot be accomplished until the books adopted at the recent meeting of the Commission arrive. It will be remembered that the opening of the schools was delayed one month by the failure of the book commission to agree as to the books to be used and now an additional hardship is worked by the failure of the books to arrive on time.

CAPT. KINNAIRD ILL.

It will be sad news to the many friends of Capt. William J. Kinnaird to learn that he is in feeble health. He is now in Lancaster at the old home visiting his sisters Mrs. Maria Kerby and Misses Kate and Lillian Kinnaird. He has been joined by his wife and children from Middlesboro, and everything that kind and loving hands and skilled medical advisers can do is being done and it is sincerely hoped that under the influence of these kindly ministrations, Capt. Kinnaird will rapidly regain his health and strength. W. J. Kinnaird, is a son of the late Wm. H. and Mrs. Patsy Kinnaird and was born and reared in Lancaster, and was long prominently identified with our business interests, but some years ago removed to Middlesboro, where he has since conducted one of the leading insurance agencies of eastern Kentucky.

MR. FLANNERY RE-TURNS TO COUNTY.

Mr. C. B. Flannery who recently removed to Paris from this county, has purchased a farm of John Browning near Hackley and will take possession of it on January 1st. In the meantime Mr. Flannery has moved into the Marksbury property on Danville street, recently vacated by Mr. Wesley Walker, where he will reside until January 1st. Mr. Flannery is a splendid citizen and will meet with a hearty reception in Garrard.

V. A. LEAR SUFFERS SEVERE LOSS BY LIGHTNING.

Mr. V. A. Lear the well known trader and stockman suffered a severe loss by lightning during the storm of last Monday afternoon; he had a valuable brood mare and two mules killed outright and three other mules so badly crippled as to render them useless. The stock were being pastured on the farm of Mr. Clay Sutton near town on the Lexington pike. The loss to Mr. Lear will be considerably over a thousand dollars.

SHEEP RINGS AT K. OF P. FAIR.

The K. of P. Fair Association, of Stanford, inadvertently left out of their catalogue one of the most important stock shows that will be seen at their fair, and take this the only method of telling their farmer friends and the general public. As follows:

Best Buck lamb (any breed) under 1 year old \$3 to 1st \$2 to 2nd.
Best ewe lamb (any breed) under 1 year old \$3 to 1st \$2 to 2nd.
Best Buck (any breed) over 1 year old \$3 to 1st \$2 to 2nd.
Best ewe (any breed) over 1 year old \$3 to 1st \$2 to 2nd.

Special premium given by Geo. L. Penny, Druggist, Stanford Ky. Will be shown the first day.

PROMINENT YOUNG MAN SHOCKED

By Lightning During Monday's Storm.

During the severe rain and electrical storm on Monday afternoon, Hiatt, son of Mr. and Mrs. O. T. Layton was shocked by lightning and rendered unconscious for about an hour. However, we are glad to state that he is fully recovered from his experience and suffered no bad results, with the exception of a red mark on one of his legs from the knee down tracing the course of the electric current. The young man was standing beside his mother in the door of their home, and her arm rested upon his shoulder when the bolt came. No further damage was done in the home, save the melting of the heads of the tacks in the carpet in the path of the bolt, nor did Mrs. Layton suffer any inconvenience therefrom.

WELCOME RETURN TO AUGUST ELECTION.

An old time Garrard county farmer told a Record man that he welcomed the return of the annual August election because of the fact that he would again be able to raise turnips. Upon being asked what the August election had to do with the raising of turnips, he informed us that it had always been his custom, and a custom handed down for generations in his family, to plant turnips on August election day, regardless of weather conditions, and it was his belief that unless this was done, no turnips would be raised, and that since the passing of the August election years ago, he had neither planted or raised turnips until this year. Other people in the county are wedded to the superstition that you should "plant your turnips the 25th day of July, wet or dry."

SCHOOL BOOKS TO BE EXCHANGED

Regardless Of Condition.

The following press dispatch sent out from Frankfort would indicate that all school books will be exchanged by dealers for the newly adopted books at the exchange valuation, regardless of their condition, provided however they are of the same grade.

Frankfort, Ky., July 27—Regardless of conditions, text books belonging to the children in the public schools of this State will be traded to the book companies at the contract price. As a result, Barksdale Hamlett, State Superintendent of Public Instruction, said yesterday he would save the parents thousands of dollars.

Hamlett has decided that under the act of 1914 all publishers will be required to take up and exchange books, regardless of condition, provided they are of the same grade. The ruling was made to correct an impression that has gone out that such books offered in exchange would have to be in good condition.

Hamlett's interpretation of the law is that the "good condition" clause applies only to such books as are held by dealers on their shelves, which of course, must be taken up by the contractors at the original net prices.

MR. LAYTON IMPROVING.

The many friends of clever Terrill Layton, who has been sick since last Christmas will be glad to know that his condition shows marked improvement within the last few weeks, and his family and friends now have great hopes of his speedy and complete recovery.

YOUNG HOMER BLAND INJURED WHEN ALIGHTING FROM EXCURSION TRAIN.

Homer, the 19 year old son of Mr. W. H. Bland, who resides near the old double tollgate house on the new Danville pike, was injured while attempting to alight from the excursion train returning from Cincinnati early Monday morning. For some reason the train is said not to have stopped at the station at this place, but ran by some distance and backed up to allow passengers for this place to alight. Young Bland upon seeing that the train had reached Lancaster, and was not stopping, alighted while the train was moving rapidly. He struck a box car on the siding and was rendered unconscious, and his injuries were at first thought to be serious. However, after remaining unconscious for several hours, he came round all right, and was found to be suffering from a severe shock, and it is thought that he will be all right in a few days.

MATERIAL ADVANCE IN AMOUNT OF LICENSE CHARGED TENT SHOWS.

"Tent Shows" desiring to visit Lancaster in the future will not find such "good picking" as has been their want. The City Council on last Monday ordered the City Attorney to draw a substitute ordinance for the one now in effect, the substitute to contain such material increase on this character of attractions (?) as will deter them from making extended or frequent visits to Lancaster in the future. Many of the Council were in favor of making the license prohibitive, but the views of their colleagues prevailed and the license was placed at such a figure as will permit only the best of these attractions to give exhibitions here in future.

This class of shows has been working overtime in Lancaster here of late, and the amount of money taken away by them will amount up into the thousands. Some of them are really good, the one that was here last week for instance, while to say that some of them were bad, does not half express it.

However, there are a great many people in Lancaster who enjoy going to these better class of attractions occasionally, and who do not have either time, means or opportunity to get away from home often to see better attractions, and besides all of us relish a little recreation occasionally, and for this reason a prohibitive license to these amusements would be an injustice to many of our citizens, and for this reason the license while substantially increased, will be placed at such a figure as will permit the entrance of the better class of tent attractions.

CAMDEN AND BECKHAM CARRY COUNTY

Willson And Bullitt Lead On Republican Ticket.

Beckham carried Garrard county by a handsome majority, with Stanley second and McCreary bringing up the rear. Stanley, taking all things into consideration, made a splendid race in Garrard county; he was comparatively unknown here, his only introduction to the people being the occasion upon which he spoke here, and that speech evidently gained him considerable favor in the eyes of the people of the county as is evidenced by the number of ballots cast for him. Upon the other hand, Gov. Beckham, and McCreary are well known here and have many warm friends among the Garrard county democrats, who left no stone unturned in their behalf.

Following is the vote cast in the county according to the official count, made by the Board of Election Commissioners on Tuesday:

Long term Senate, Beckham 587, Stanley 268, McCreary 196. Short term, Camden 643, Young 145, Smith 30.

Republican, long term, Willson 77, Ernst 37, McLaughlin 7. Short term, Bullitt 76, Fitzpatrick 15.

Progressive, long term, Vance 97, July 55. Congress, Holtzclaw 149, Jesse 4.

STOUT LILLARD TO BE SEEN IN MODERN DANCES AT OPERA HOUSE SOON.

With characteristic enterprise Manager Romans of the local opera house has succeeded in securing Stout Lillard and Miss Washington in the latest dances at the opera house soon, and no one should miss the opportunity of seeing them. They will portray the tango, turkey trot, maxixe and other modern dances.

Mr. Lillard's parents were former residents of Lancaster and now reside in Danville, where the young man has frequently appeared in the dances all ways to a large and appreciative audience. There is nothing immodest or in the least offensive in the dances as portrayed by Mr. Lillard and Miss Washington, and all should take the opportunity of witnessing the interesting exhibition.

THE PARK NOT TO BE AGAIN UTILIZED AS A VOTING PLACE.

The City Council at its regular meeting on last Monday night had an order entered upon its books prohibiting the use of the Park as a voting place, and instructing the Chief of Police to prevent the use of it as a place for holding the elections in future.

This is as it should be, the Park was never the proper place for a voting place, it brings two voting precincts within a few feet of each other, and the voters cannot be kept the required distance from the polls, there is scarcely any privacy, and the least excitement, even the challenging of a vote, attracts everyone in the park, usually a score or more to the scene of the least excitement, and often times brings about trouble that otherwise and under more favorable surroundings could have been avoided, and this action should have been taken years ago.

The city has been adjudged the legal custodian of the Park, and they are acting fully within their rights in prohibiting the holding of elections there, and their action in taking such a step is heartily to be commended.

GARRARD CO. MAN A GERMAN "RESERVIST" LEAVES TO HELP PROTECT "The Fatherland."

Mr. John Arnold, who has been in the employ of Mr. R. Zimmer at the Kengarian hotel for the past six years as a baker, left quietly Sunday for Cincinnati. Upon reaching that city he at once reported to the German vice-consul for service in the German army in the present war. His services were gladly accepted and he was assigned to duty as a wagon master, in which capacity he served during a part of three years former army service, and with which duties he is well acquainted. Mr. Arnold after perfecting his plans, returned to Lancaster Sunday night, informed his employer of his intentions, and quietly and unobtrusively packing his belongings, left Lancaster for Cincinnati Tuesday morning, leaving the latter place at 9 o'clock Tuesday night for Lachen, Bavaria, the point to which he has to report for active service.

Such is the love of the average German for the "fatherland", and it is not believed that any amount of money would have tempted Mr. Arnold to turn a deaf ear to the call of his country when in need of his services. He has been in this country nine years, six years of which he has spent in Lancaster. He is a quiet orderly man and has many friends in Lancaster who hope that he may come safely through the bloody conflict and return to resume his home and business in Lancaster.

JUDGE HARRIS APPOINTED CITY ASSESSOR.

At its regular session last Monday night the City Council by unanimous vote appointed Judge E. W. Harris City Assessor for the ensuing year. Judge Harris has served in the same capacity before and is thoroughly conversant with the duties, as well as being an expert on the valuation of Lancaster real estate. The appointment will meet with popular approval, as Judge Harris has always made a popular officer with the people of the community.

A CLEAN UP WOULD BE ADVISABLE.

We respectfully call the attention of the City Council to the general condition of the alleys of the City of Lancaster, and suggest that they take immediate steps to remedy the existing conditions. Scarcely an alley in town but that is blocked by some old wagon or other kind of rattletrap vehicle to the imminent peril of pedestrians who chance to travel them at night, and in some instances making it difficult for vehicles to pass through them even in day time. Many of them are grown up with rank weeds strewn with garbage and reeking with vile odors. The "stray pen" underneath the water tower is a vast wilderness of weeds, equal to the "black forest" of Germany and we very much fear some dark crime will be committed in fastnesses unless it is cleaned up.

Seriously, such a condition of affairs is a menace to the health of the community, and the city authorities should take steps to have these back streets and alleys placed in a sanitary condition without delay.

LOST:—Sunday afternoon, a Cameo Breast pin. Reward if returned to Miss Bettie West.

Don't Buy a Wagon Until You Have Seen the Columbus

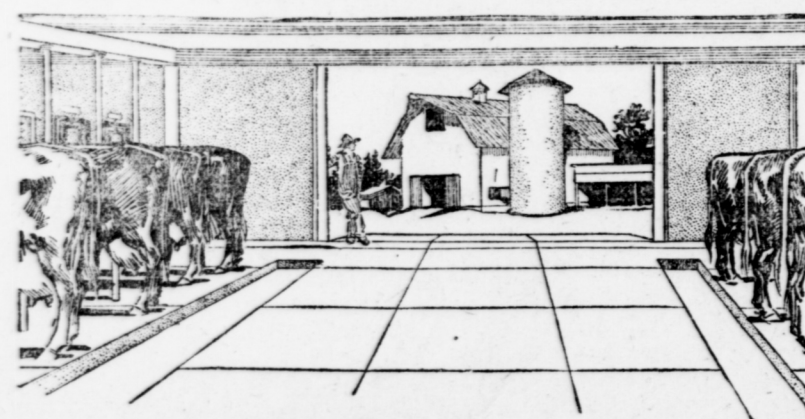

Before you decide on any wagon, examine the Columbus. Strongly built of the best possible material the Columbus wagon gives the most satisfactory service for the longest period of years. There is no secret in the notably long life of the Columbus wagon. It is the result of the methods employed in construction. There is no wood in this wagon which has not been air-dried under shelter from one to two years.

The axles and the spokes of the wheels are hickory; the hounds, bolsters and sandboards are oak, and the bottom of the box is straight grained flawless pine. These are just a few examples of the care which is taken to make this wagon as reliable as possible. The result is that the Columbus wagon is unbeatable in reliability and endurance. Come in and examine it for yourself. We know you will be pleased.

BEAUTIFUL, SOFT, FLUFFY HAIR AN AID TO BEAUTY

Who does not love a head of pretty hair? Some women think it is gift of nature and envy their more fortunate sisters. If your hair is not fluffy, soft and lustrous: is falling out, streaked, faded, brittle, or full of dandruff and if the scalp itches, do not think it must always be that way, for pretty hair is only a matter of care and proper nourishment of the hair roots. Hair is something like a plant—if neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful.

Parisian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long, thick, puffy, soft and lustrous. It removes dandruff with one application and quickly stops itching head and falling hair.

R. E. McRoberts or any druggist can supply you with Parisian Sage—it is inexpensive. You cannot be disappointed with this delightful and helpful hair tonic for the first few days use will give the hair the beauty and charm of youth.

Attendance at Church of Representative Men More Powerful Than Sermons

MEN should GO TO CHURCH.

What is the matter with our men? They are quick to proclaim their faith in God. They will strongly resent the intimation that they are nonbelievers. Yet when they are asked why they don't attend church they are ever ready with an excuse. If the leading men in this community, one and all, would start right now to attend church regularly their example would be all powerful. Their continued attendance would be more effective than a dozen sermons.

IT IS NO EXAGGERATION TO SAY THAT 75 PER CENT OF THE REGULAR CHURCHGOERS TODAY ARE WOMEN. A HUSBAND WILL TAKE PRIDE IN HIS WIFE GOING TO CHURCH. IN FACT, HE WILL ENCOURAGE ALL HER CHURCH ACTIVITIES. IT IS RIGHT THAT HE SHOULD. IT IS ALSO RIGHT, AND ONLY JUST, TOO, THAT HE SHOULD BE SEEN IN CHURCH. SURELY THERE IS NOTHING THAT HE NEED FEAR IN THE HOUSE OF WORSHIP. SOME ARE QUICK TO CRITICISE THE PREACHER. IT WILL BE SAID THAT HIS SERMONS ARE DRY. AGAIN IT WILL BE SAID THAT HE IS SENSATIONAL IN HIS METHODS. THE READING OF THE GOSPEL OF THE DAY, THE WORD OF GOD, IS NEVER DRY. NEITHER IS IT SENSATIONAL.

It is true that we live in a rapid fire age. It is true that minutes count. It is true that the calls of business and social activities are pressing. But no man is too busy, none so much in demand but that he can arrange to spend a small part of Sunday in church. There isn't a man who attends church but feels better after the service. CHURCHGOING IS UPLIFTING. It takes our mind off the fleeting things of this world. CHURCHGOING is not far removed from the sublime.

GO TO CHURCH next Sunday!

GO TO CHURCH the following Sunday!

GO TO CHURCH every Sunday!

The Paint Lick and Point Leavell ball teams played on the Point Leavell diamond Saturday afternoon resulting in a score of 9 to 0 in favor of Paint Lick.

There will be no preaching services at old Paint Lick church during the month of August as Mr. Eldridge will spend this time in taking a much needed vacation.

Misses Sallie and Mattie Woods have as their guests Misses Margaret Arnold of Lancaster, Zelia Rice and Elizabeth Hagan of Richmond and Cecil Bowling of Bryantsville.

Little Miss Dollie Woods was kicked in the face by the family driving horse on last Tuesday, breaking the bone in her nose and cutting and bruising her face considerably.

Mrs. B. M. Lear and daughters Misses Mary and Alma, were hosts at a lovely "At Home" on Friday from 4 to 6. The rendition of a number of old familiar airs by Mr. Salem Wallace on his violin accompanied by Miss Alma Lear on the piano was a most delightful feature of the evening. In the dining room, where many candles shed their mellow light, a delicious salad course was served, while in the hall a cooling fruit punch refreshed the assembled guests.

Misses Carrie and Grace Anderson and Miss Mary Bands Anderson, of Stanford, were the guests of Miss Ruby Parrish last Saturday night.

Miss Jennie Smith gave a birthday party Saturday night at her home at White's Mill. Quite a large crowd was present and all report a nice time.

We often run on strange errands for the fair sex, but on none stranger than a recent errand, the memory of which will remain with us for some time. One hot afternoon, when the mercury played around the century mark, a very attractive young lady, in dulcet tones, inquired of us if we could climb. Assuring her that we delighted in such sport, she fired the following stunner at us, "Are there any wasp nests in the barn?" We told her there were quite a number. "Please get me a nice little nest". We obeyed with alacrity. A tedious climb to the extreme top of a high coned tobacco barn put us next to Wasp town. Selecting the nicest nest which would fill her order, we "shooed" the stingers away, and breaking the stem which supported the lanky domicile, we made haste to descend to the more secure footing of terra firma. The truth is, we started, when the dispossessed dispensers of hot stuff began to vacillate the person of their disturber with something 100 per cent hotter than Cayenne pepper. It "took" at once and a quick transit was made with no stops at way stations; our retainers were on the spot as we landed with a heavy jolt, ready to further the work of proofing our rundown system against chills, ague or yellow Jacks. Not wishing to continue in their company, we dove into the deep shade of a welcome corn field near by, where by dint of much dodging, beating and swatting we soon arrived on the veranda, hotter than wool, hatless and speechless. It had not been a bootless quest. We had what we went after and more. The trophy was in our grasp, little blue blazes seemed playing over us from head to foot and our two jaws looked like a bad case of mumps. We were puffed up but not with pride. Our

feelings were hurt and we were miserable beyond compare. With our nearest bow we presented the wasp nest, intact and as beautiful as when the little devils had finished their home and held their house warming. In sweetest cadence, "Thank you," the young lady spoke as she admired the nest, seemed to commiserate our banged up appearance. We felt too bad to ask why the nest had been wanted. Curiosity prompted us to ask but prudence forbade. A week rolled away and now we know. Her Ma told Aunt Bet she wore the wasp nest in her hair as a charm to win and hold Tom Jones' love. She's been mighty sweet on Tom ever since and has only an icy stare for us.

THE TWENTY YEAR TEST.

"Some twenty years ago I used Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Geo. W. Brock, publisher of the Enterprise, Aberdeen, Md. "I discovered that it was a quick and safe cure for diarrhoea. Since then no one can sell me anything said to be 'just as good.' During all these years I have used it and recommended it many times, and it has never disappointed anyone." For sale by all dealers.

A BIG PICNIC

Danville Fair Officers Decide to Have Three Gala Days Consisting of Airship Flights Midway Shows Etc.

At a meeting of the directors of the Danville Fair Association, it was decided to give a three days' exhibition of airship flights on the grounds of the association on August 5, 6, and 7. In addition to the flights by the best aviator in America, there will be a big Midway consisting of many high-class, innocent shows. There will be a merry go-round, a big Ferris wheel and many other attractions.

There will be no Fair, or exhibition of stock. The principal feature will be an old-fashioned picnic each day. The gates will be opened at one o'clock, p. m. and the admission price twenty-five cents. This will be an occasion for an old-fashioned good time, together with an opportunity to see the great air ship and other good shows.

FINE FARM FOR SALE

For private reasons I will have to give up farming; and will sell my home place of 230 acres. This farm is in 1-2 mile of Crab Orchard, adjoining the Fair Grounds and lands of J. W. Guest. It has a brick dwelling of six rooms, hall, porch, and cellar; a frame summer dining room and kitchen attached; a good tenant house, two stock barns, a \$1,200 tobacco barn of 8 acres capacity, and all other necessary out-buildings.

This farm is in a high state of cultivation; 130 acres of river bottom land this is fine corn, meadow, or grazing land; 100 acres of up-land, adapted to blue grass, and is fine for tobacco, corn, wheat and other grain.

Dix river bounds it on the east, with two creeks running through the farm, five never-failing springs, and a splendid bored well, of pure limestone water, at the door, which gives an abundance of stock water during the dryest seasons, which makes it an ideal stock farm.

This farm can be nicely divided into two farms—about 130 acres with tenant house; and 100 acres with improvements.

Will sell as a whole or in two tracts, to suit purchasers. Liberal terms will be given. Seeding privileges given, and full possession January 1st, 1915.

DEMOCRATIC TICKET.

For U. S. Senator—Long Term.
J. C. W. Beckham, of Frankfort.
For U. S. Senator—Short Term.
J. N. Camden, of Versailles.
For Congress.
Harvey Helm, of Stanford.

Ex-Governor J. C. W. Beckham proved to be the choice of the majority of the Kentucky democrats in Saturday's primary for the senatorial nomination, long term. Characteristic of Kentucky elections the contest was spirited and the two leading candidates and their friends put up a game fight. Criticism for any democrat who was loyal to his choice is unjust and intolerable. Just as it is political dishonor for any democrat to participate in the primary and sulk when his man loses. We did what we could for the nomination of Mr. Stanley and are pleased at the splendid showing that he made in this county under the circumstances as well as in the entire State. But our man has lost in a primary that was perhaps not altogether fair, but not to the extent of changing the results as we observe it. We shall therefore, take pleasure in doing what we can to elect the successful aspirant to the Senate.

Mr. Stanley, good democrat as he is and has always been, will use his great ability as a campaigner for the entire ticket.

We see nothing on the political horizon save the triumph election of Beckham and the entire ticket in November.

MONDAY AFTERNOON STORM Does Considerable Damage.

The rain and electrical storm which visited parts of the county last Monday afternoon did considerable damage in various sections.

Beside the damage noted elsewhere in this issue of the Record, a new tobacco barn in course of construction by Judge C. A. Arnold was blown down. Messrs. James Clark Jr. and Thomas Hendren suffered severe damage to their tobacco crops from hail which it seems was confined to that immediate locality. Corn was blown down in various other sections, and in Lancaster the shade trees were considerably damaged by the wind.

"SENATOR BECKHAM, GOVERNOR STANLEY" Appears To Be The Democratic Slogan In Kentucky Since The Primary Election.

Accepting the results as now indicated by the face of the returns, Garrard county democrats, regardless of whose cause they espoused before the primary, are enthusiastically declared their allegiance to Gov. Beckham for the United States Senate. The air seems throughout the State to be pervaded with a feeling as one newspaper has aptly put it, "Let's have Beckham for Senator and Stanley for Governor."

Harry Giovannoli, in the Lexington Leader predicts that all indications at present point to the nomination of Mr. Stanley at the Democratic primary next fall as the candidate for Governor of that party, and further asserts that Mr. Stanley already has his campaign made, and were the election to be held at any near date, he would not have to make another speech.

The following paragraph closes the Leader's editorial comment on the recent primary and the future prospects of Mr. Stanley, referring to the splendid race made by Mr. Stanley, the Leader says:

"The result of his race with Beckham leads to the belief that had the campaign lasted two weeks longer he would have been successful. He seems to be the sort of a candidate that his party wants, and no one of the gentlemen now talked of as a probable candidate for the Democratic nomination for Governor could defeat him if he entered the race."

MELROSE FARM A BLUE RIBBON WINNER.

Chimewood and the get of Thistle Doune, two noted stallions of the Melrose Farm, made some wonderful records as blue ribbon winners at the Harrodsburg fair last week. The popular owner of these horses being unable to attend the fair on account of a recent accident, they were ably handled by that crack reinsman, Nim Buster. Some of the colts of Thistle Doune winning first and second in the trotting bred class.

POISON NOW THOUGHT TO HAVE CAUSED DEATH Of Victor Lear's Mules.

On Tuesday night Mr. V. A. Lear lost two more mules, the latter never having shown any signs of distress, and it is very evident that lightning was not the cause of their demise. Since the death of the latter two animals doubts have arisen as to whether or not the stock which Mr. Lear has been so unfortunate as to lose came to their death by lightning. In fact evidence strongly points to the fact that something else caused their death, probably poison, as there was signs of struggles in the vicinity where the dead animals were found. Dr. Pontius has been sent for to come here from Lexington to make a post mortem examination of the dead animals. He will arrive here today, and until the result of his examination, opinion in the matter will be withheld. The mules were yearlings and two year olds and were valuable animals.

CRAB ORCHARD SPRINGS FILLING RAPIDLY SINCE ELECTION "You'll Have To Hurry" If You Want A Room.

Since the election is over and the men folks are free to leave their homes and are feeling themselves in need of a little rest and recreation after the strenuous campaign, their thoughts naturally turn to Crab Orchard as the ideal place to rest and recuperate, and in consequence Ma and Pa Willis are sorely put to it to accommodate their sudden influx of guests. However, they seem to have the knack of always "finding room for one more", and all who apply are accommodated comfortably. The season is at its height and the fun is fast and furious, lots of nice people and all having a jolly time. No strangers, everybody knows everybody else, and everybody tries to make everybody else have a good time. Lancaster as usual is furnishing her full quota of the large number of guests in attendance at this popular resort.

WAR CLOUD GROWS MORE OMINOUS, EVEN ENGLAND LIABLE TO Be Drawn Into The Affair, Will Protect French Coast.

The European war situation grows graver with the passing of each day. The German Ambassador has left Paris, which means France is to join hands with Russia in the conflict. England by her French alliance is compelled to protect the French coast and is already mobilizing her troops.

A hitherto unknown factor in war will be the aeronauts, and already the airmen are scouting above the opposing armies and occasionally dropping terrible destroyers in the shape of bombs which create great havoc.

Two air men collided or rather drove their machines directly at each other, one French, the other German, with the result that both machines were dashed to earth and wrecked and their occupants killed.

Italy has signified her intention and desire to remain neutral. Many engagements have already taken place, accompanied by slight casualties, but no battles of any consequence have as yet been fought. The various countries party to the coming conflict are busy mobilizing their armies and preparing for what promises to be the biggest war of modern times.

The United States is not connected with the controversy, and there is no chance of our becoming involved in the embroglio. However, we will to some extent be effected financially, the various ports of the world will from time to time be closed to our products, and American stocks will to a certain extent be effected, but President Wilson with Congress standing solidly behind him has made preparation for every emergency and serious injury to this country as the result of the war is impossible. With ample financial arrangements made to meet every contingency, the United States can assume the role of a sorrowing though interested onlooker.

LANCASTER COL. TEAM Wins Over The Harrodsburg Nine

Lancaster Eclipse team defeated the Harrodsburg Nine on the latter grounds by the score of 8 to 3.

Lancaster has one of the strongest teams in the State and to beat the local Nine is a hard proposition. The all-around playing of Burdett, Emerson and Short was the feature of the game.

MR. BATSON INVOICING.

As the record goes to press the immense stock of Mr. R. H. Batson is being invoiced to Mr. Frank Moore of Wayne City Ind. to whom it was sold recently by Mr. Batson. Mr. Moore has not signified his intentions as yet, but it is presumed that he will reopen for business as soon as the work of invoicing is completed. Neither has Mr. Batson outlined his plans for the future, but his many friends are hoping that he may remain in Lancaster.

CHANGE AT POSTOFFICE SOON TO COME.

The preliminaries necessary to the installing of Mr. E. P. Brown as postmaster at Lancaster, and the postoffice department will doubtless indicate in the near future the day upon which the transfer is to be made. Mr. Brown's appointment was promptly confirmed by the Senate, but it requires some little time to prepare and submit his bond and arrange other necessary details.

LANCASTER FANS ENJOY TWO BALL GAMES.

The Swain show people had a ball team with them and two games were played on the home grounds on Thursday and Friday of last week. The games were really good ones, but to the tall hungry fans of Lancaster they appeared equal to games between the Reds and Giants with Matthewson and Ames pitching. The first game was with John Tatem's Point Leavell team, and was a tight one, the Swain team getting off to a good lead, but Tatem's boys came up from behind and in the first half of the ninth inning the score stood 7 to 5 in favor of Tatem's boys, when a home run was knocked by Luther Broadus, which the Swain people claimed to be a foul, and when manager Tatem refused to allow it, the umpire, one of the show men, declared a forfeited game, 9 to 0 in favor of the Swains. However it was an interesting game and the actual result was 7 to 5 in favor of the Point Leavell team. On Friday afternoon a picked up team of Lancaster boys played the Swain team, the result being 8 to 7 in favor of the Lancaster boys.

News Of The Churches.

Revival services to begin at the Methodist church in Lancaster, on Monday night, August 17th. Rev. E. L. Bridges of Asheville, S. C. has been engaged to do the preaching. Bro. Bridges is one of the leading evangelists in the field today. We cordially invite one and all to come and enjoy the services, and lend a helping hand to bring about an old time revival.

Rev. S. H. Politt.

Rev. S. H. Politt is now in a meeting with Rev. R. B. Caird at Hebron and the outlook is fine for a good meeting.

General News.

The long delayed Railroad Rate Decision of the Interstate Commerce Commission was reached Saturday. The Commission denied the plea of a general increase in passenger and freight rates, but granted an increase of five per cent on freight rates to those roads north of the Ohio and Potomac rivers, east of the Mississippi river and west of a line drawn from Pittsburgh to Buffalo. The chief roads affected by the decision were the Pennsylvania and the New York Central Lines.

CHAUTAUQUA N. Y. NOTES.

(By Florence Christopher)

The weather for last week, Musical Festival week, was delightful.

The fame of the Music Program had gone abroad and an enormous crowd was present. People came from far and near. The biggest attraction was Victor Herbert and his Orchestra. The Musical Program for last week cost the Institution \$5,000.00.

On Tuesday afternoon a Wagner program was rendered.

On Wednesday the "Eroica" of Beethoven was followed by a delightful program.

The Parent Teachers Conference held every Saturday morning are of vital importance.

Saturday night, the Hon. Bourke Cockran, of New York City, spoke on the subject, "Democracy, not Socialism", the true solution of all problems.

Six weeks spent at Chautauqua is a liberal education in itself, for as Bishop Vincent says, "Chautauqua is an IDEA embracing the all things of life."

Edward Everett Hale was so impressed with Chautauqua, that he said, "If you have not spent a week at Chautauqua, you do not know your own country. There you meet New Foundland and Florida at the same table, there you are of one mind, one heart, there the forty thousands who drift in and out."

Read What a Lancaster Child Says About The Great Majestic RANGE

Majestic RANGE

Reason Why the Majestic Should Be In EVERY KITCHEN.

If a child can figure why the Great Majestic is the best and least expensive; Why can't You?

Don't forget that you can get the \$8.00 set of MAJESTIC Cooking Utensils FREE this week only. All who place an order during this exhibit will receive this cooking outfit free. Exhibit closes Saturday, Aug., 8th., at 6:30 p. m. This will give you an opportunity. If you expect to buy this summer or fall don't fail to call and closely examine every part of the range while it is in operation. Make This A Study as the children have done and you will not have any of the "Just-As-Good Kind." Remember the Great Mrjestic is the only Charcoal Iron Range in the world and GUARANTEED to resist rust and heat 300 per cent greater than any steel range made. This can't be denied.

The Two First prize winners were Eugenia Dunlap and Isabella Terrill.

What range is your Mother now using? Ans. The Great Majestic. Why should the Great Majestic be in every kitchen? Because it is the most durable range made, being made of Malleable wrought iron with Malleable straight joints, will not warp or rust out like others. Will bake good biscuit in three minutes, the heat is all in the range instead of going up the chimney which is proven by using a paper stove pipe, and any one will find that it won't take half the fuel that others consume. When you buy a Majestic you get all quality and time has proven there is no comparison.

(Other Letters will appear next week.)

PARCEL POST HINTS.

Pack and wrap your parcels securely. Most of the damage and losses are due to insecure packing.

Address your parcel correctly and plainly.

Write your own name and address in the upper left hand corner.

Packages containing eggs should be marked "Eggs".

Packages containing perishable matter should be marked "Perishable".

Packages containing liquids, jellies, etc, should be marked "Fragile".

Don't pack eggs, berries or similar produce in a thin pasteboard box.

Eggs wrapped separately and surrounded in cotton or excelsior and packed in a strong corrugated pasteboard, wooden or metal box can be sent any distance.

Don't put any writing in the package unless it is a bill for the goods, or a description of the contents of the package.

Do not send perishable matter so that it will arrive in the city on a Saturday evening or on Sunday—unless you use a special delivery stamp.

Consult your postmaster as to the best time for mailing country produce so as to reach the city at the best hour the quickest time and in the best condition.

Please hand us that dollar.

CHANGE YOUR SEED WHEAT.

Sell ten bushels of your common wheat at market price, say 75 cents, making \$7.50. For this sum, \$7.50, we will send you enough of the wonderful Marvelous wheat to sow ten acres.

You're skeptical? We don't blame you! It will cost a stamp or postal card to get the proof how thousands of others in 1913 and 1914 saved money on their seed wheat and grew the greatest crops they ever did.

We quote just a few extracts from hundreds of letters received. The original letters are on file in our office and can be seen by interested people.

It will make 2 bu. to 1 of old kinds.—C. L. T., Madison Co., Ky. Will yield 50 bu. per acre. Neighbors buying seed —W. M. P., Scott Co. Ky. QUALITY OF THE FARM BUSINESS.

The farmer may have sufficient area and grow the right kind of crops, yet not be successful, owing to the poor quality of his entire business. Poor crops that do not pay the cost of production and the feeding of these to unproductive live stock are common causes of failure. This characteristic of unsuccessful farming attracts much public attention. Such farms are unprofitable largely through ignorance or indifference on the part of the operator. Under good management they can generally be made successful.

The improper organization of a large farm limits its possibilities, just as area limits the small farm. Single crops or single live stock enterprises seldom utilize farm labor to its maximum. By having several crops there is not only better distribution of labor, but the chances of total loss from crop failures are lessened. Fortunately, corn, oats and wheat utilize the farmer's time pretty thoroughly through the growing season. In some parts of this country certain crops that need labor only a part of the year may be so profitable that the farmer can afford to be idle the rest of the year. However, these are the exceptions. Most crops are not profitable enough to permit any such practice. Idle horses and machinery are nearly as expensive as idle men. If the working equipment can all be kept busy on paying enterprises success is almost assured.

TO CURE A CHOKED COW.

A Homemade Contrivance That Will Be Found Effective. Now that the season for feeding roots in the yard or for turning cows into fields where turnips have been grown or feeding refuse apples is with us we occasionally hear of cows being choked. A contrivance that will be found effective to use in a case of this kind may be made of a round piece of wood two inches thick and seven inches long fastened to two side pieces eighteen inches long, with a hole bored at each end of the side pieces and also several holes in the round pieces of wood. This round piece is put into the mouth of the choking cow and a rope passed through the holes in the side pieces.

which is fastened over her head in the manner of a bridle. The animal breathes through the holes in the bit, and in her effort to rid her mouth of this great flow of saliva takes place, which runs down her throat when she holds her head up and assists in causing the obstruction to pass down or be ejected. Besides, it entirely prevents the animals from becoming hoarse and thus dying from suffocation. There are many methods in use to assist animals that are choked, but many of them are dangerous on account of injuring the gutlet.

DAIRY NOTES.

In nearly every community the majority of the milk and cream producers realize that a large sum of money is lost annually because of the low score of butter sold at 1 or 2 cents per pound less than the best grades and are interested in the production of the kind of a product that will make good butter. The few that are disinterested or will not accept the advice of the butter maker as to how a better grade of cream can be produced are the ones that are responsible for the low quality of much butter. A great deal of butter that sells for 30 cents per pound and the other kind that sells for 15 cents per pound is raised on the same land with only a rail fence between. The difference lies entirely in the brains of the men who produce it and the man who puts it on the big markets. Every dairy farmer should have a milk house where it is possible to take care of the milk and the cream without letting it become contaminated with undesirable odors and flavors. Some people think that the dry cow needs no care, but those that make the best records have the best care during their period of rest. A concrete tank will not spring a leak, and at the same time it will always be ready for use.

THE NORTHERN TUTOR

A Story of Old Plantation Life

By WILLARD BLAKEMAN

Some sixty years ago Edward Lanier, a graduate of a northern college, having read much of plantation life, felt inclined to spend a few years in the south as tutor of the children of a planter. He desired to study law, but must support himself while doing so. By following his proposed course he would have much time to himself and live an entirely different life from what he would live in the north.

Lanier, through friends, obtained the position he desired in the family of Colonel Malcolm Sinclair, who owned a large plantation in Georgia and 1,000 negroes. He found the colonel an honorable, conscientious man and thoroughly identified with southern customs and interests. The oldest son was fifteen, and Lanier was expected to prepare him for college. A daughter, Alma, seventeen, was also to receive instruction from him. The other children were from seven to twelve.

If there is one principle concerning their children that parents are apt to ignore it is that, given a young man thrown in intimate relationship with a young woman, and there usually results a love affair. One of Edward Lanier's duties was to teach Alma Sinclair an hour a day. He lived under the same roof with her, and their association was unrestricted. Whether Colonel and Mrs. Sinclair did not think their daughter old enough to fall in love, or whether they considered that she would not think of a northern peniless tutor as a suitor, does not matter; they seemed oblivious to the principle above stated.

Lanier realized that he was hired to teach their daughter, not to make love to her. Indeed, the kindness and consideration with which he was treated by the family, the liberty accorded him, threw him on his honor not to attempt to win the heart of a girl of the impressive age of seventeen. Alma herself soon showed signs of a preference for her tutor. This was in no wise due to a lack of modesty, but to an innocent unconsciousness that she had lost her heart to him.

When Lanier saw in his pupil signs of love it troubled him. What compli-

cated matters was that in his heart he reciprocated the attachment. But never a word or a look of his betrayed love. Indeed, when he saw that his charge was in her innocence stepping over the line that separated them he would ignore any recognition of her sex.

The more oblivious he seemed to the girl's preference for him the more complicated became the situation, for his ignoring of her expressions of attachment were set down to indifference, and that in one who loves is not to be tolerated. Alma being unconscious of her real feelings, or perhaps not realizing the danger of the situation, was very incautious. One day during the presence of her mother she spoke to Lanier in a tone to indicate her preference for him. He knelt his brows, looking a warning. Mrs. Sinclair not only heard what her daughter said, but caught the tutor's look intended to repress her. She informed her husband of her discovery.

Lanier had been considering the expediency of breaking away from the girl he loved and who loved him and had made up his mind to do so at an early date. He was too late. Within an hour after the episode mentioned Colonel Sinclair came to him and said:

"You have been admitted to my home and have been treated with every consideration. You have taken advantage of your position to make love to my pupil. I desire that you leave this house immediately."

This was in the olden time when man's deference, his sense of protection, to woman was all powerful. How could Lanier justify himself? By say-

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Caron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Said tracts of land lie together, adjoining and used as one large farm, containing 530 acres of land, more or less.

The purpose of the sale of the personal property is to liquidate the debt of J. H. Baughman to the extent that the proceeds may do. The purpose of the sale of the real property is to satisfy the residue of the debt of J. H. Baughman, which amounts to, including the interest, up to date of sale \$1,011.00 and the debt of the Farmers National Bank, of Danville, Ky., amounting to including interest \$2,050.00 to date of sale, the debt of the Nicholasville Lumber Company, amounting to \$327.77 to date of sale, the debt of the company's debt amounting to \$309.52 to date of sale, debt of Charles Detreitch amounting to \$394.35 to date of sale, J. F. Cook & Company's debt, amounting to \$560.80 to date of sale, debt of Joseph C. Vannmeter amounting to \$133.10 to date of sale, W. E. Hatfield's debt amounting to \$464.85 to date of sale, and the probable cost of this action amounting to \$200.00.

TERMS

Said personal property will be sold on a credit of three months, and the purchaser or purchasers will be required to execute bond with approved security said bonds due in three months payable to W. H. Brown, Master Commissioner of the Garrard Circuit Court, and to bear interest at six per cent from date of sale until paid, and to have the force and effect of a judgment upon which execution may issue.

Said real estate will be offered in separate parcels and then as a whole, and the bid or bids realizing the largest sum will be accepted. The sale will be made on a credit of six and twelve months and the purchaser or purchasers will be required, to execute bonds with approved security for the purchase price due in six and twelve months after date, bearing interest at six per cent per annum from date until paid, said bonds having the force and effect of a judgment upon which execution may issue payable to W. H. Brown, Master Commissioner of the Garrard Circuit Court, and a lien will be reserved upon the property sold until all the purchase money is paid.

FARMS AND THE BOY.

Farming is a business just the same as any other industry, and until our schools teach some of the fundamental principles governing profitable farming the farm boy is likely to seek work elsewhere. Considering that the farm boys of today will be the farmers of tomorrow, too little attention is given to their training.

Many boys leave the farm because they see no future in it. Another important reason is the lack of profitable work at home. A moderate sized farm is necessary to give employment to the farmer and his sons. The small farm does not provide work; hence the boys must find employment elsewhere. Let them fully understand how farm profits and losses are made and there will be an incentive to remain. First make our farms profitable and the question of keeping the boys there will solve itself.

Successful farming is an individual, economic problem. The farm is a combination of enterprises, and their individual organization will determine, in a large measure, its profitability. Sufficient area and a proper organization of well selected farm enterprises to permit the maximum use of men, horses and machinery are the essential characteristics of the most successful farms.

FIGHT THE FLIES.

War Should Be Vigorously Made Upon Their Breeding Places.

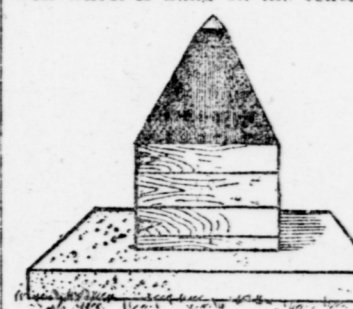

Now is the time to begin the fight against the housefly. From 55 to 90 per cent of our flies breed in horse manure, so that the obvious remedy is to prevent the collection of quantities of stable litter which might act as fly nurseries. Their next favorite breeding place is the kitchen garbage and cesspits. These latter can be more easily eliminated than the former. Begin early by removing all stable litter to the field. See that no small pockets of manure are left around the stable yard after the removal of the litter. Then follow this cleaning up by hauling the manure on to the field each day during the summer. This may seem like a burden to the farmer, but with a little forethought, it need not be so. Arrangements can be made for the use of a field for this purpose, and it is a well known principle that manure placed at once upon the field is of more value as plant food. Remember that during summer weather a period of five days may be sufficient to produce a brood of flies from the egg to the adult so that manure left in a pile for this length of time will serve as a breeding place.

Flies feed upon filth, such as spittle and that found in privies, but they are also very strongly attracted by the odors of cooking and food in the house. To prevent infection from being carried to our food, every precaution should be used to make the out-buildings perfectly sanitary so that flies cannot enter, and the houses should also have windows and doors fitted with screens.

The motto in fly control should be, "Better sanitation" both in the barnyard and about the house. C. W. Howard, Assistant Entomologist, University Farm, St. Paul.

A Sanitary Well Curb.

A well house like the one below is a guarantee that impurities will not get into a dug well. The curb is set in a cement platform. This platform is built around the curb, thus holding it solid and preventing surface water from trickling down. The curb is made from matched lumber with a roof that has a sharp slope. The well wheel is hung on the center pole

IMPURITIES WILL NOT GET INTO THE WELL OF THE ROOF. The forms for the cement platforms are made from six inch boards. The concrete is mixed half cement and half ballast. Apply three inches of concrete, then spread on a layer of hog wire. Put bent rods around the corners. Apply the rest of the concrete smooth, off well and let stand three days before removing forms. The well curb should have lids attached with hinges. These can be closed when the well is not in use, thus preventing dust from blowing down.

French Intensive Culture.

The intensive culture of vegetables is largely practiced in France differs materially from the ordinary cultivation. Crops occupy the ground during the whole year and are also concurrently grown together in the same space.

Intensive culture on a more or less extensive scale must, save in exceptional circumstances, be treated as a business or run on business lines. Amateurs and private gardeners can learn to supply their own requirements by this system, but to fully appreciate its possibilities it must be worked as a commercial business.

Queer People of Papua.

In the Girani country, Papua, a district of New Guinea, where the country is almost entirely submerged, the natives are said to claim descent from the dog. They possess five totems, which are drawn on all their houses. Their villages are erected on hillocks so as to be clear of the water, and the people of each village inhabit one large, common house, sometimes as much as 400 to 500 feet long and 60 to 80 feet in width. The center of this huge building is a kind of common hall, which is used only by the men, while the walls of the structure are divided into cubicles in three or four floors, access to which is gained by means of ladders. The women are not allowed to enter the building by the same door as the men. A great deal of sorcery prevails in the western division. In the wilder parts of the country the chief is himself a head sorcerer. He claims to be able to separate his spirit from his body and to send it on various missions, including that of killing people.

Lots Like That.

A certain famous skyscraper builder said in his New York office the other day apropos of costs and values:

"Costs and values get confused because there are so many men who, if sunshine had to be paid for, would swear that gas gave a much more brilliant light."—New York Times.

BECKHAM WINS IN KENTUCKY

Camden Gets Short Term For United States Senator.

VOTE IN STATE WAS LIGHT

Governor McCreary Failed to Carry a Single District—Present Congressional Representatives Who Were Candidates For Renomination Were All Successful—Little Disorder at the Polls.

Louisville, Ky., Aug. 3.—J. C. W. Beckham is Democracy's choice in Kentucky for United States senator. Johnson N. Camden is the winner for the short term nomination.

Though much interest had been aroused in the various races, there was little disorder at the polls. The vote was light.

Beckham has carried seven of the eleven districts. Governor McCreary has not carried a single district.

Beckham has majorities in the First, Third, Fourth, Seventh, Eighth, Tenth and Eleventh, while the Second, Fifth, Sixth and possibly the Ninth will go to Stanley.

The seven representatives who did have contests scored a clean sweep throughout the state and all will be candidates for election in November.

Beckley carried the First district by a big majority. In the second David H. Kincheloe wins by a big vote over Henson. Kincheloe's majority is estimated at 6,350. Henson carried only one county in the entire district, his home county giving him a majority of 230.

R. T. Thomas won his contest in the Third by a majority of 1,600 over Virgil Chapman. Chapman carried his

home county, Simpson, by a fair majority, but Thomas lost only two counties in the district, Ben Johnson in the Fourth scored a walkover.

Swager Sherry scored the landslide of the entire primary by carrying a vote of 11,422. This is by far the largest majority ever given a candidate in a primary here.

Cantrill was an easy winner over Claude H. Thomas in the Seventh, the latter's race being a disappointment to many of his supporters. Cantrill's vote was 1,680 and that of Thomas 825. The Republican and Progressive vote in this district was very small.

Caleb Powers in the Eleventh again has proved his popularity throughout the mountains by winning an overwhelming victory over Joseph P. Henson. Powers carried 14 out of 15 counties, leaving Henson only his home county, Bell, which gave him 1,500 majority. Powers' majority for the district is estimated at over 15,000.

The Winners.
